

GR

GR2110 (TOP)

FEATURES

Open, full-flat operator platform

Not only does the full-flat operator platform provide easy entry and exit, the “open” nature of the platform minimizes operator fatigue by offering plenty of legroom.

Weight adjustment dial

Standard-equipped on the GR2110, the weight adjustment dial allows the operator to customize the seat suspension, optimizing comfort and travel smoothness.

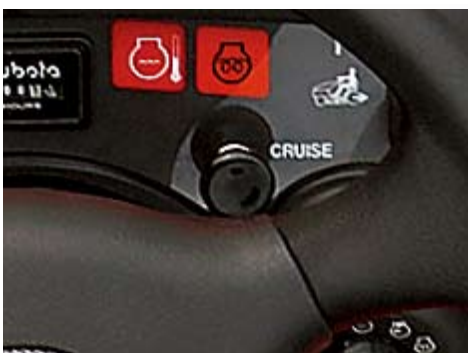

Height adjustment dial

A simple turn of the height adjustment dial allows the operator to easily and quickly adjust the mower cut height from 1" to 4", in 1/4" increments.

Hydraulic mower lift lever

Ergonomically positioned to the left of the operator, the hydraulic mower lift lever provides simple and almost effortless lift/lower operations of the mower deck.

Cruise control

To engage, simply depress the pedal, then set the speed by pulling the speed-set knob.

GR2110 (TOP)

FEATURES

Seat position adjustment lever

Because no two operators are alike, the seat position adjustment lever enables the operator to select the ideal position to work more comfortably and productively.

New, comfortable high-back seat

New to the GR2110, the high-back seat is coupled with suspension, an adjustable weight dial and a seat position lever, to provide the operator with maximum comfort.

Cup holder

Quench your thirst while you're on the job. Conveniently located to the left of the operator, the handy cup holder is capable of handling cans, cups, mugs, and bottles of various shapes and sizes.
