- 6"-deep, 54"-wide Pro Commercial mower deck

QUALITY & RELI

If you're looking for an efficient, easy-to-use, high-performance mower that produces immaculate results every time, then Kubota's ZG-Series zero-turn mowers were made for you. With the ZG-Series' main components, the state-of-the-art Kubota petrol engine, the reliable Kubota HST transmission and Kubota Pro Commercial mower decks, made by a single manufacturer, these zero-turn mowers are truly one-of-a-kind in the industry. This solid combination of commercial-quality components is what makes the ZG-Series deliver the performance you've been looking for.

FULL-SIZE MODEL [300 SERIES]

ZG327P-60

- Commercial model
- 27HP Kubota petrol engine
- 6.5"-deep, 60"-wide Pro Commercial mower deck

DURABLE KUBOTA PETROL ENGINE

The new, V-Twin Kubota petrol engine delivers durability and productivity like nothing else. Available in 22HP or 27HP, this reliable, air-cooled engine offers outstanding performance and quiet operation. Specifically designed for mowing, it features Kubota's clean-flow structure, which virtually eliminates the likelihood of grass clippings clogging the wide cooling air passage. And Kubota makes maintenance simple—the engine cover can be removed so you can perform routine maintenance without taking the engine out of the machine. Plus, a unique carburetor drain cock allows you to drain out residual petrol, to keep fuel lines clean and making the transportation or long-term storage of the mower safer.

Clean-flow Structure

Carburetor Drain Cock*
*When in use, consult operator manual and handle with care.

Removable Engine Cover

ABILITY

For professional-quality performance, exceptional and outstanding durability, look no further than

Pro Commercial Mower Deck

The ZG327 features a heavy-duty, 60" Pro Commercial mower deck for superior cutting performance. With a deck depth of 6.5 inches—the deepest in the industry—it features a unique baffling system that improves airflow to discharge grass clippings, and an anti-overflow system, which reduces grass spillage. The deck utilises a flexible-but-sturdy discharge cover, which helps prevent damage to shrubs and landscaping. It's the ideal mower deck—for any mowing job.

6.5" DEEP DECK

Optional Mulching System

The ZG327's deep mower deck is perfect for mulching, even on thick grass. A Kubota-designed flow plate optimises airflow and facilitates repeated cutting, and the specially designed mulching blades provide an extra-fine cut to leave a beautiful finish.

Operator Comfort

Operator Platform

This spacious operator platform is designed to make you comfortable while working. It has wide speed control levers and an obstacle-free floorboard to allow greater legroom, and features a wide step to simplify mounting/dismounting.

High-back Deluxe Suspension Seat

Maximise your comfort with the ZG327's cushioned, reclining, high-back deluxe suspension seat. The ergonomic, extra-wide adjustable seat features 3-position lumbar support, adjustable armrests, seatbelt and much more, to reduce fatigue and make your job easy.

Indicator Panel

The ergonomically angled control panel enables easy viewing and keeps most major controls and indicators within close reach. It includes fuel and oil gauges, cutting height adjustment dial, locking PTO lever and more.

Hands-free Parking Brake/Deck Lift Pedals

With the ZG327, you only need to depress a single pedal to park the mower. And, thanks to the 2-pedal hydraulic deck lift system, you can easily raise and lower the deck to keep mowing in spite of obstacles. All three pedals are placed directly in front of you on the angled footboard for easy access.

al comfort,
the ZG327.

ZG327

Reliable Hydrostatic Transmission

The large-capacity HST brings performance to a new level. Regulated by an efficient gear hydraulic charge pump, the HST delivers smooth control, quiet operation and a quick response. Plus, the durable copper metal cylinder block ensures transmission durability and performance.

Mower Access

The ZG327 features a special maintenance hatch, with a built-in storage pocket, on the full-flat operator platform. It allows easy access to the upper mower, mower belt, gearbox case, and universal joint parts.

Integrated Radiator Screen

A large steel-mesh screen is integrated into the bonnet. This boosts airflow to keep the engine running cool and efficiently, and protects vital parts.

Easy Maintenance

With the ZG327, maintenance is hassle-free. The seat panel lifts up for quick access to the HST. Routine servicing (adding oil, etc.) is easy—just open the bonnet. The maintenance hatch on the operator platform makes upper mower access a snap. For a complete view, all three can be opened at the same time. A 5" dual-element air cleaner with vacuum sensor informs you when service is required. Kubota's optional tilt-up lift feature is also available for routine maintenance underneath the mower.

Underside Maintenance

With the simple stroke of a lever, a sub-chassis hatch opens to give you easy access to the oil filter and removes stray clippings.

Under Access Lever

Under Access

Semi-pneumatic (Flat-free) Front Tyres

An industry first for this size, the 15", flat-free caster tyres were created to absorb impacts with the rigidity of their structural thickness. This feature greatly reduces the worry of downtime from flat tyres, so you can spend more time working.

The ZG222 and ZG227 deliver the reliability and cutting performance needed to keep lawns looking

Pro Commercial Mower Deck

The ZG222-48/ZG227-54 feature heavy-duty, 48"/54" Pro Commercial mower decks designed to maximise cutting performance. The 6"-deep, double-belt decks feature a unique baffling system that improves airflow to discharge grass clippings, and an anti-overflow system that reduces grass spillage and helps give lawns that well-manicured look.

6"-DEEP
DECK

Optional Mulching System

These Pro Commercial mower decks are perfect for mulching, even on thick grass. Kubota's unique flow plate design optimises airflow to allow repeated cutting, and the special mulching blades provide an extra-fine cut to leave a beautiful finish.

Pedal-type Lift System

Elevate the mower deck and roll right over obstacles. The ZG222/ZG227 include a hydraulic lift system that raises and lowers the deck with the simple push of a pedal. And, if necessary, a special one-touch lock allows you to keep the deck in place.

Flexible Cover

The ZG222/ZG227 employ a flexible-yet-sturdy discharge cover to help prevent damage to shrubs and landscaping.

Reliable Hydrostatic Transmission

The ZG222/ZG227 boast an integral-type, twin HST. With a wet, multi-disc PTO clutch to transfer power smoothly, and a shaft-drive mower, the HST ensures ultra-smooth performance and superior durability.

ng beautiful.

ZG222/ZG227

Operator Comfort

Operator Deck

Work in style and comfort. The spacious operator deck has an uncluttered floorboard to give you ample legroom.

Comfortable Seat

To make mowing tasks more comfortable, we've included a cushioned seat with sturdy, padded armrests. The adjustable seat also features an attached seatbelt for your protection.

Panel

With the user-friendly instrument panel, Kubota keeps essential controls and indicators close for easy access and viewing. They're all here—warning indicator, fuel gauge and more.

Cup Holder

Mower Access

For easy access to the upper mower, mower belts and universal joint parts, the ZG222/ZG227 feature a convenient maintenance hatch built into the operator's platform.

Easy Maintenance

Maintaining your ZG doesn't get easier. The seat panel lifts up for quick access to the HST. Routine maintenance is easy—just open the hood. The maintenance hatch on the operator platform makes upper mower access a snap. For a complete view, all three can be opened at the same time. Kubota's tilt-up lift feature is also available for routine maintenance underneath the mower.
